**FOR IMMEDIATE RELEASE**

## **Repairs at Broadway and Willamette Scheduled to Begin Monday**

Work is scheduled to begin Monday, Sept. 24, on a project to replace the bricks on Broadway.

The \$144,000 project includes removing the failed brickwork on Broadway in the vicinity of Willamette Street and replacing it with continuously reinforced decorative concrete. Brown Contracting of Eugene will do the work. The project is being managed by the Eugene Public Works Engineering Division in consultation with Scott Wylie, the artist who originally designed the Broadway Plaza area.

The work is scheduled to take about four weeks to complete. For the first two weeks, Broadway will be closed to through traffic between Oak and Willamette streets. Then the work will shift to the west side of Willamette, and Broadway will be closed between Willamette and Olive streets.

Sidewalks and business access will remain open at all times.

For updates on this project and other local roadwork, call the Metro Roadwork Hotline at 984-8484, or on the web at [www.eugene-or.gov/traffic](http://www.eugene-or.gov/traffic).
